Rise Above
Your Challenges

The world is undergoing a period of unprecedented change and uncertainty. And the pressures on business and technology teams have never been more intense.

Obstacles abound. Business visibility is limited. Technology is evolving rapidly. Skills and budgets are in short supply. Technology debt and cybersecurity fears make forward momentum difficult.

Yet, you aim high.

You are determined to pursue your goal: To transform the business. You know that technology—from analytics to automation, and from IoT to AI—can unlock new levels of intelligence, efficiency, and innovation. You are determined to leverage it to pioneer new business models and revenue streams; streamline and automate operations; enhance security and customer experience; and boost the productivity and safety of employees.

We understand your challenges. We are here to help.

Are You Being Held Back By

- Budget constraints impacting technology, people, and innovation?
- Cybersecurity threats compromising enterprise risk posture?
- Technology debt and complex IT environments?
- Complex data privacy, and governance and compliance requirements?
- Economic volatility and business visibility?
- The rapid pace of technological change?
- Operational inefficiencies that undermine productivity and cost efficiency?
- Limitations in scalability and resilience?
- Poor time-to-value and unclear RoI?

Transform Your Tomorrow

Build, migrate, modernise, optimise and innovate with Cloud Alpha Edge—
a compliant, cost-effective, secure, scalable, and high-performing hyperscale cloud service.

Achieve Financial Flexibility
Convert capex to opex and achieve both higher financial predictability and variability.

Build Robust Governance
Establish strong governance frameworks across your technology and data landscape.

Improve Operational Efficiency
Right-size requirements, and optimise costs, workloads, and utilisation with superior guidance and solutions.

Accelerate Value Realisation
Utilise ready-made blueprints, expertise, and project management skills to shorten time to value.

Ensure Infrastructure Excellence
Access secure, scalable, resilient, and global digital infrastructure across compute, storage, and networking to drive growth and efficiency.

Enhance Strategic Direction and Planning
Chart business-technology vision and roadmaps that enable you to capitalise on emerging technologies to drive revenue, profitability, customer experience, and innovation.

Raise Your Technology Quotient
Sidestep the challenges associated with being a technology laggard by leveraging the right expertise and world-class partnerships.

Enhance Security
Safeguard hybrid multi-cloud infrastructure, applications, identities, data, access, and endpoints with a world-class SOC powered by cutting-edge cybersecurity technologies, services, and global partnerships.

Boost Business Agility
Access the technology flexibility and speed business requires to adjust dynamically with changing market realities.

Shrink Tech Debt
Migrate and modernise enterprise workloads and chart clear a path for swift innovation, while lowering risk.

Bridge Skill Shortages
Tap into a deep reservoir of expertise with Cloud Alpha Edge's managed services, spanning a breadth of technologies and address skill gaps.

Improve Regulatory Compliance
Comply easily with a broad spectrum of country- and industry-specific regulations.

Cloud Alpha Edge: 5 Key Competitive Differentiators

No other cloud service provider offers some of the advantages we offer to guarantee you the ultimate peace of mind.

Compliance

- **Data Residency Compliance:** Host your data securely within Malaysia's geographical borders in data centers, ensuring full compliance with data residency and sovereignty laws.

Cybersecurity

- **Advanced Cybersecurity:** Safeguard your digital assets with Cloud Alpha Edge's cutting-edge cybersecurity services. Keep threats at bay despite a rapidly evolving threat landscape and growing attack surface.

Connectivity

- **Ultra-Low Latency:** Experience enterprise-grade connectivity and ultra-low latency, enhancing application performance, and both user and customer experience.

Capabilities

- **Hyperscale Capabilities:** Scale effortlessly with Cloud Alpha Edge, which is designed to support exponential growth without compromising performance, availability, or security.
- **Industrial Platform Innovation:** Propel your business into the future by harnessing the combined power of AI, IoT, 5G, and edge computing. Create new business models, drive groundbreaking innovation, and next-level customer experience.
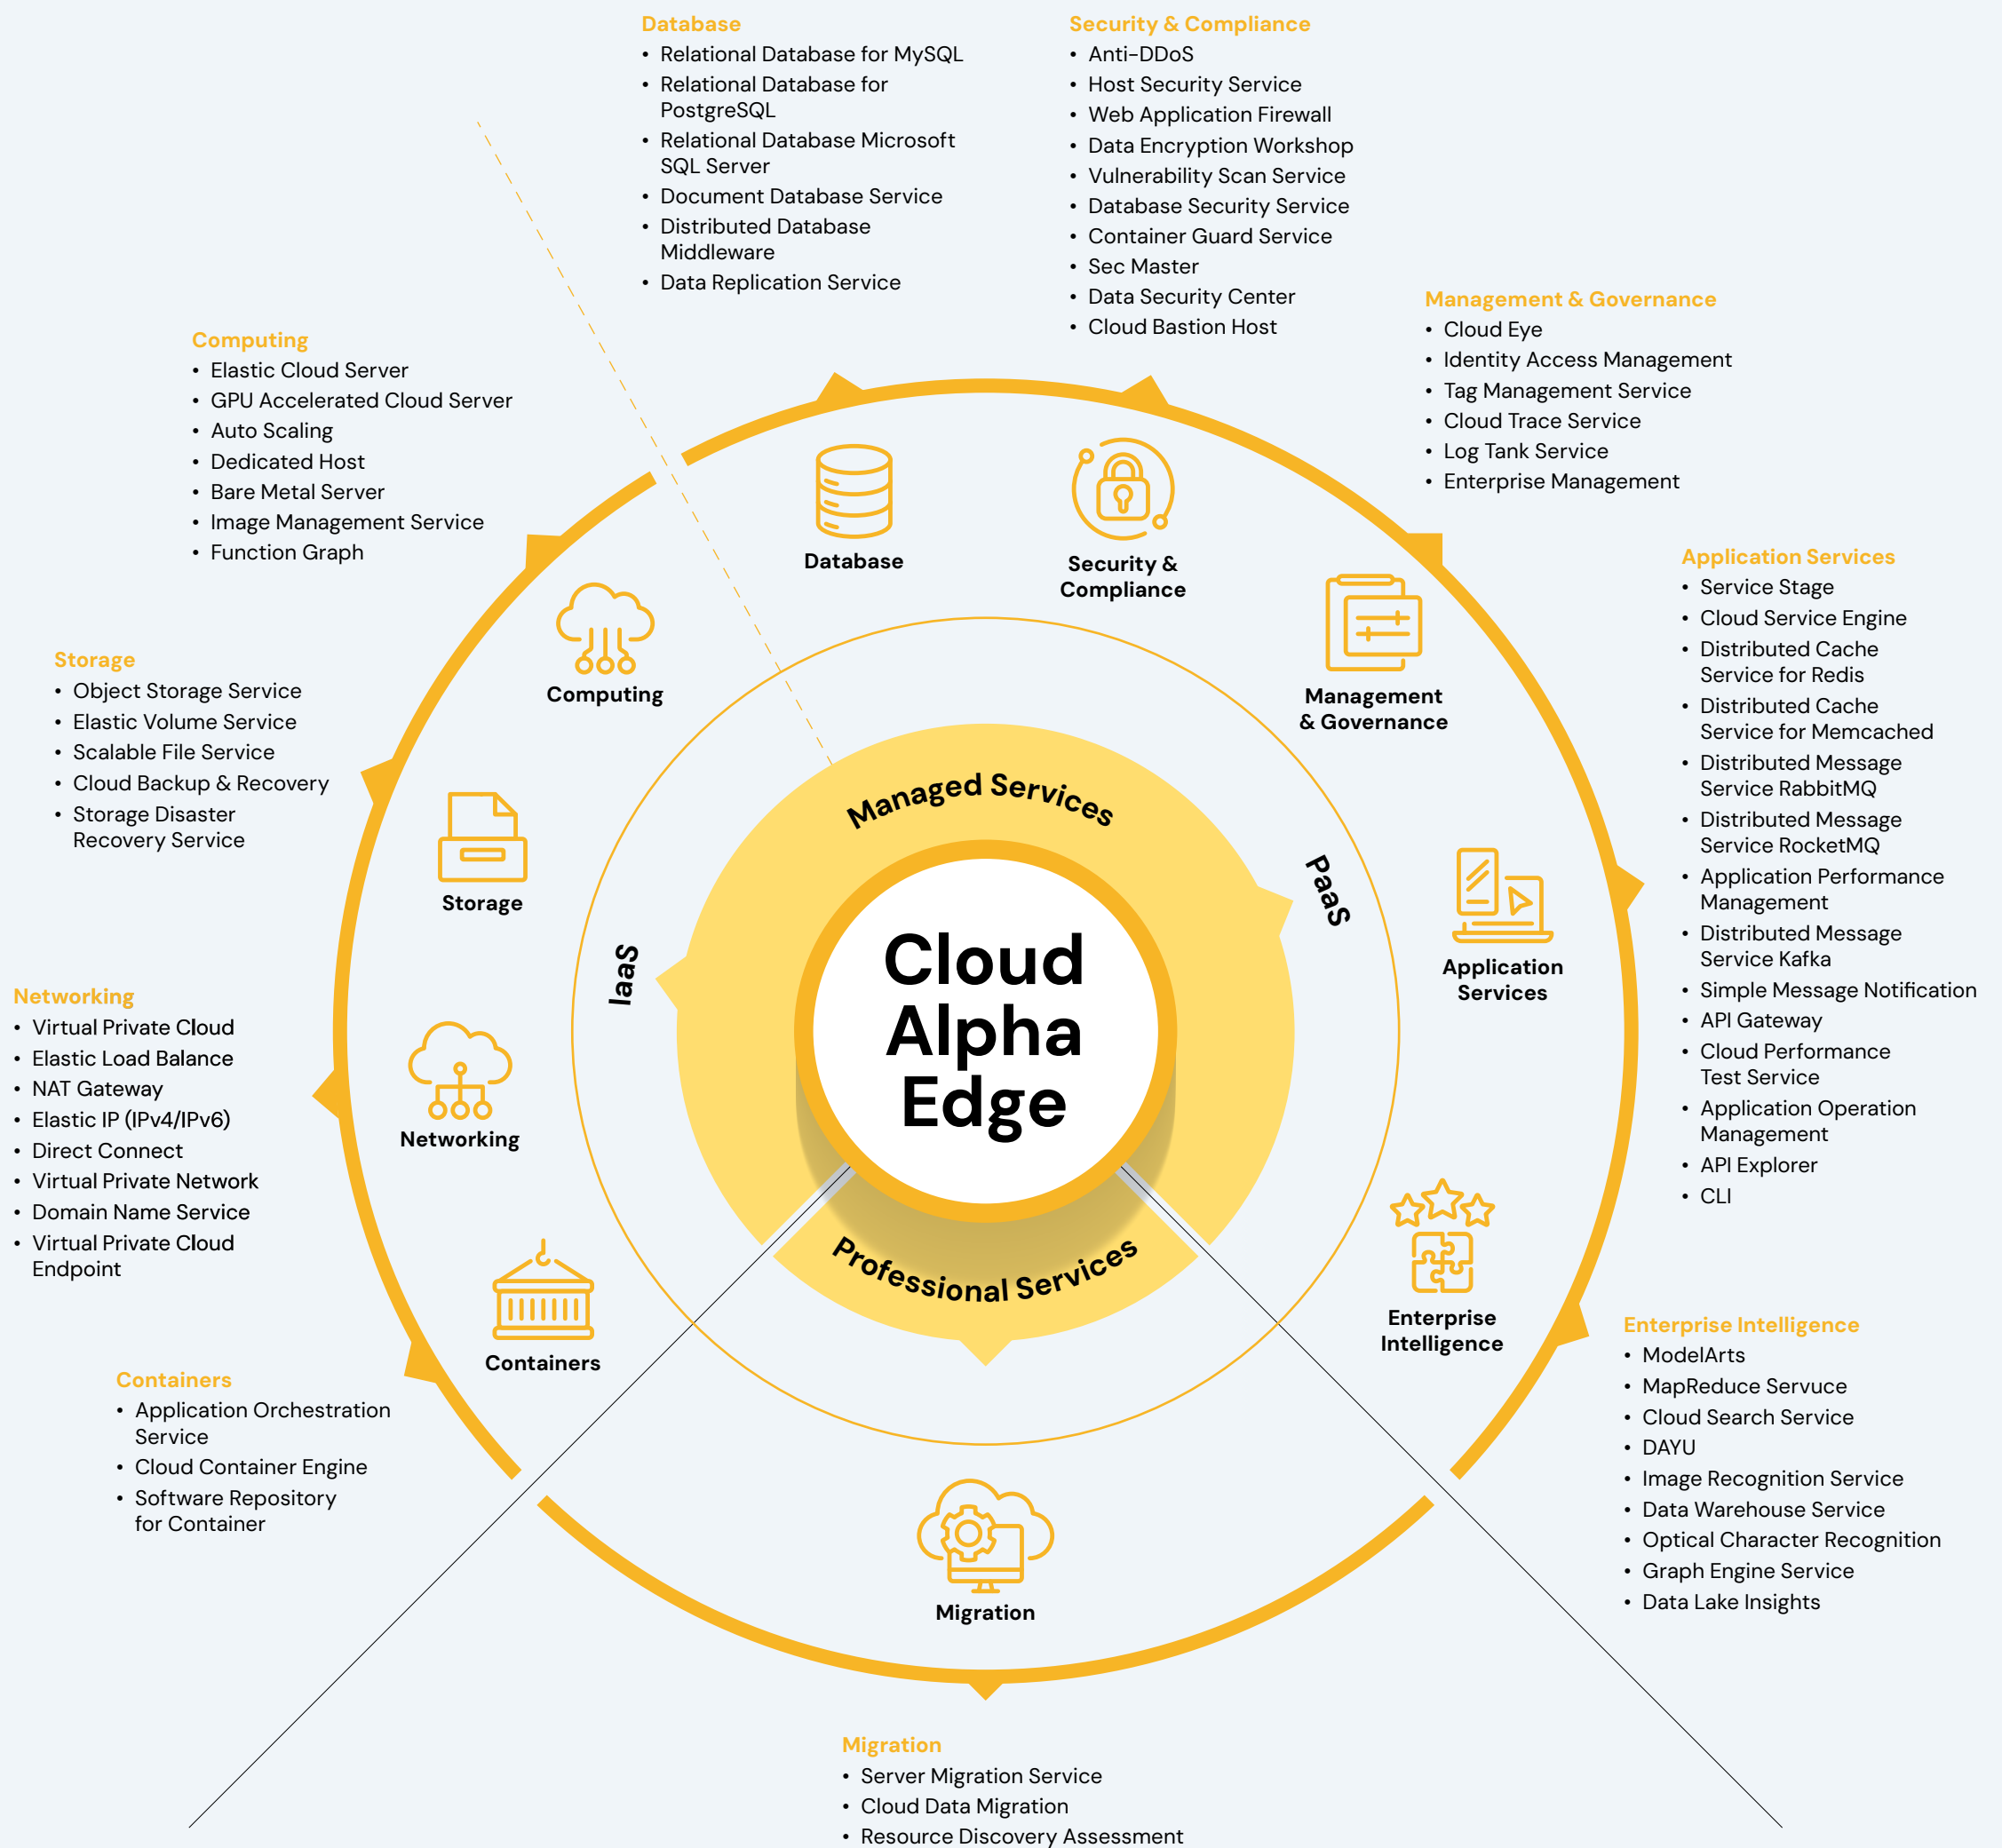

Cost

- **No Data Egress Charges:** Enjoy predictable budgeting with no hidden costs, thanks to our no-data-egress-charge policy, ensuring you keep expenses under control.
- **Local Currency Billing:** Eliminate foreign exchange risks with billing in Malaysian Ringgit (RM), providing financial clarity and stability.

The Key Pillars of Cloud Alpha Edge

The only Malaysian-owned sovereign cloud service provider under the Malaysian government's MyDigital initiative, and aggregator of end-to-end cloud infrastructure, solutions and services to enterprises and government institutions.

Database
- Relational Database for MySQL
- Relational Database for PostgreSQL
- Relational Database Microsoft SQL Server
- Document Database Service
- Distributed Database Middleware
- Data Replication Service

Security & Compliance
- Anti-DDoS
- Host Security Service
- Web Application Firewall
- Data Encryption Workshop
- Vulnerability Scan Service
- Database Security Service
- Container Guard Service
- Sec Master
- Data Security Center
- Cloud Bastion Host

Management & Governance
- Cloud Eye
- Identity Access Management
- Tag Management Service
- Cloud Trace Service
- Log Tank Service
- Enterprise Management

Computing
- Elastic Cloud Server
- GPU Accelerated Cloud Server
- Auto Scaling
- Dedicated Host
- Bare Metal Server
- Image Management Service
- Function Graph

Application Services
- Service Stage
- Cloud Service Engine
- Distributed Cache Service for Redis
- Distributed Cache Service for Memcached
- Distributed Message Service RabbitMQ
- Distributed Message Service RocketMQ
- Application Performance Management
- Distributed Message Service Kafka
- Simple Message Notification
- API Gateway
- Cloud Performance Test Service
- Application Operation Management
- API Explorer
- CLI

Storage
- Object Storage Service
- Elastic Volume Service
- Scalable File Service
- Cloud Backup & Recovery
- Storage Disaster Recovery Service

Networking
- Virtual Private Cloud
- Elastic Load Balance
- NAT Gateway
- Elastic IP (IPv4/IPv6)
- Direct Connect
- Virtual Private Network
- Domain Name Service
- Virtual Private Cloud Endpoint

Enterprise Intelligence
- ModelArts
- MapReduce Servuce
- Cloud Search Service
- DAYU
- Image Recognition Service
- Data Warehouse Service
- Optical Character Recognition
- Graph Engine Service
- Data Lake Insights

Containers
- Application Orchestration Service
- Cloud Container Engine
- Software Repository for Container

Migration
- Server Migration Service
- Cloud Data Migration
- Resource Discovery Assessment
